

SoloRain 8014e

Provide Precise, Reliable Control without Conventional Wiring.

SoloRain 8014e Actuators are completely waterproof for total confidence and dependability. Ideal applications for SoloRain wireless control equipment include hard-to-reach areas and spots where it is not practical or economical to install a hard-wired controller. They are also suited to the retrofit of manual systems or the repair of existing wired systems.

The SoloRain 8014e replaces the 8014 and 8014-SR models with additional improvements. We have made accessing the battery easier, increased the water protection, and a dust cover that keeps mud and dirt from getting onto the LED and knobs of the SoloRain

KEY FEATURES & BENEFITS

Replaces The SoloRain 8014

- Get all of the features of the 8014 plus more!

Easier Battery Access

- Screws made accessible from the top vs. from underneath so you don't have to turn the water off and remove the solenoid to change batteries.

Protective Dust Cover

- Offers an air pocket if the valve box is submerged to enhance water protection and to protect the knobs and interface from unwanted dirt and debris in the valve box.

Water Tight Gasket

- Additional protection to keep water away from the housing.

Strong Metal Bracket

- The metal bracket prevents stripping and strengthens the seal with the new rubber gasket.

5 Year Warranty

- On materials and workmanship.

SPECIFICATIONS

Operational

- Single zone valve mounted battery operated controller.
- 6 independent programs provide ultimate scheduling flexibility.
- Operates for one season on one replaceable 3.6 volt lithium battery life (depending on usage).

(8014e Enclosed View)

SPECIFICATIONS (Cont'd)

Operational

- IP68 waterproof design tested.
- Compatible with all Signature® valves and can be purchased already mounted to the valve.
- Valve solenoid adaptors are available for the majority of competitor valve types.
- Sensor ready for connection to any normally closed, rain, soil moisture, freeze or wind sensors.
- Compatible with all Signature® valves and can be purchased already mounted to the valve.
- Electrical: Factory installed 3.6 V Lithium Battery.
- 8014e Dimensions: 5½" (14 cm) x 3½" (9 cm).
- Expanded Mist Mode programming – All 6 programs can run this feature.
- Long Cycle Times – up to 23hr 59min run time.
- Redesigned DC pulse circuit for reliable actuations.

ORDERING INFORMATION

- Model: 8014e
- Description: Battery Operated Actuator
- Master Carton: 6 units
- Master Carton Weight: 10.0 Lbs (4.53 Kg)
- Dimensions: 7" H X 10 1/2" W X 6" D
(17.8cm) H x (25.4cm) W x (15.2cm) D
