Final Installation

Attach Keypad & Display and Ground Wires, but do not attach Keypad to wall mount until cable connections have been connected.

1. Connect long cable (3) to ACPAC. (See Front View)
2. Connect loose end of Green Ground Wire (3) to chassis screw with nut.
3. Mount Keypad (1), use four small screws (5). (See below)
4. Mount expansion plates with screws as required.
